

2023-2024 ISMA LEGISLATIVE ACCOMPLISHMENTS

SUPPORTING PUBLIC HEALTH

Governor's Public Health Commission

- ✓ Appropriates a combined \$225 million over the biennium (HEA 1001) to establish a regulatory framework and optional grant program to support local health departments in delivering core public health services to their communities. [SEA 4 (2023)]

Contraception and maternal health

- ✓ Allows unopened, unused long-acting reversible contraceptives (LARCs) to be transferred between Medicaid recipients if certain conditions are met. [SEA 252 (2023)]
- ✓ Requires hospitals to offer Medicaid-eligible women the option of receiving subdermal LARCs before discharge from the maternity unit. [HEA 1426 (2024)]

Trauma system quality improvements

- ✓ Establishes and funds the Indiana Trauma Care Commission to promote statewide cooperation and the development of a comprehensive state trauma plan. [SEA 4 (2023)]

Research funding

- ✓ Establishes a state grant fund to support research into potential therapeutic benefits of psilocybin in treatment of mental health disorders, chronic pain, and migraines. [SEA 139 (2024)]

ACCESS TO CARE; PHYSICIAN WORKFORCE

HIP equalization

- ✓ Requires all Indiana Medicaid programs to reimburse physician services at not less than 100% of the Medicare rate. [HEA 1001 (2023)]

Graduate medical education (GME)

- ✓ Appropriates \$14 million over the biennium to the Graduate Medical Education Board and \$4,764,394 to the Medical Education Board to support establishing and expanding physician residency programs across Indiana. [HEA 1001 (2023)]

Physician noncompetes

- ✓ Provides a primary care physician (family practice, pediatricians, and internal medicine) and an employer may not enter a noncompete agreement after July 1, 2023. [SEA 7 (2023)]

INSURANCE; REGULATORY ISSUES

Prior authorization and payment reforms

- ✓ Shortens the timeframe for an insurer to respond with a prior authorization determination for urgent cases from 72 to 48 hours and for nonurgent cases from seven to five business days. [SEA 400 (2023)]
- ✓ Prohibits prior authorization and retroactive denial for a specific set of commonly requested and granted CPT codes for services rendered to patients covered by the state employee health plan. [SEA 400 (2023)]
- ✓ Secured commitments from House and Senate leadership to work toward comprehensive prior authorization reforms in 2025.

TRANSPARENCY; SCOPE OF PRACTICE

Emergency department supervision

- ✓ Requires that a hospital with an emergency department (ED) must have at least one physician on-site and on duty who is responsible for the ED at all times the ED is open. [SEA 400 (2023)]

Defeated numerous attempts to inappropriately expand the scope of practice of nonphysician practitioners:

- ✓ SB 213, SB 371, and HB 1330 (2023) and HB 1059 (2024) all removed the requirement that advanced practice registered nurses (APRNs) must enter into a collaborative agreement with a physician.
- ✓ SB 49 (2023), SB 190 (2023), SB 191 (2023), HB 1215 (2024) and HB 1371 (2024) also expanded the scope of practice authority for various other nonphysician practitioners, including dental hygienists, certified registered nurse anesthetists, and physician assistants.
