*This comparison is not applying the deficit reduction act cap for advanced imaging services.

**These estimates are only for services with RVUs in NPRM addendum B and do not include payment estimates for service priced in the Anesthesia Fee Schedule, the Clinical Lab Fee Schedule or vaccine administration services. Also, the analysis does not take into account for GPCIs, the 15 percent reduction in payment for NPs/PAs or the DRA cap for certain advanced imaging services. Also, if a CPT or HCPCS code did not have Medicare utilization in 2019, it would not have been included in these estimates either. Also, the estimates do not account for MPPR
