

# Learn how to discuss safe storage of lethal means with parents and caregivers of young children

The Store It Safe (SIS) Quality Improvement (QI) Project will help simplify safe storage guidance and practices through a unique collaboration between the Ohio and Indiana AAP chapters.

## Store It Safe (SIS) QI Program participants will receive education on:

- Lethal Means Restriction Counseling (LMRC)
- Screening
- Safe Storage Resources

## From March 2026-November 2026, participating practices will receive:

- 25 points of MOC IV Credit
- \$ Clinic stipend
- Updated resources for families and youth
- Safety lockboxes
- iPads for efficient and streamlined data entry
