Purpose: It is the policy of the Indiana State Medical Association (ISMA) to ensure balance, independence, objectivity and scientific rigor in all of its sponsored educational activities. All participating faculty, course directors, and planning committee members are required to disclose to the program audience any financial relationships related to the subject matter of continuing medical education (CME) activities/programs. Relationships of spouse/partner with proprietary entities producing health care goods or services should be disclosed if they are of a nature that may influence the objectivity of the individual in a position to control the content of the CME activity. Disclosure information is reviewed in advance in order to manage and resolve any possible conflicts of interest. This information is necessary in order for us to be able to move to the next steps in planning this CME activity.

Persons who fail to provide this information in advance of the course (allowing for adequate time for review) are not eligible to be involved in this CME activity.

Participation: We are pleased that you are willing and able to participate in this CME activity, which is accredited by the ISMA. The ISMA is accredited by the Accreditation Council for Continuing Medical Education (ACCME). As such, we are required to meet the ACCME's expectations for our practice of continuing medical education.

- The content and/or presentation of the information with which I am involved will promote quality or improvements in healthcare and will not promote a specific business interest of a commercial interest. Content for this activity, including any presentation of therapeutic options, will be well-balanced, evidence-based, and unbiased, and has adequate justification for their indications and contraindications in the care of a patient.
- Recommendations involving diagnosis and treatment discussed in the presentation are based on evidence which is accepted within the profession of medicine as adequate justification for their indications and contraindication in the care of patient.
- All scientific research referred to, reported or used in CME in support of justification of patient care recommendation will conform to the generally accepted standards of experimental design, data collection, and analysis. Citations of the work are recommended.
- The content will not promote recommendations, treatment, or manners of practicing medicine that are not within the definition of CME, or known to have risks or dangers that outweigh the benefits or known to be ineffective in the treatment of patients. The content will not advocate for unscientific modalities of diagnosis or therapy.
- Objectives of my presentation are consistent with overall objectives of the course, and the content is relevant to participants needs.
- I have disclosed (via Disclosure Form to ISMA) all relevant financial relationships. I understand these will be disclosed to the audience, if they are relevant/potentially relevant to the educational content.
- I have not and will not accept any honoraria, additional payment or reimbursements beyond that which has been agreed upon directly with the ISMA.
- I understand that ISMA CME staff will need to review my presentation and/or content prior to the activity, and I will provide educational content and resources in advance, as requested.
- I understand that commercial entity corporate names or logos should not appear on my slides or handouts.
- I understand that ISMA CME staff may be attending the event to ensure that my presentation is educational, and not promotional, in nature.
- If I am discussing specific health care products or services, I will use generic names to the extent possible. If I need to use trade names, I will use trade names from several companies when available, and not just trade names from any individual company.
- If I am discussing any product use that is off label, I will disclose that the use or indication in question is not currently approved by the FDA for labeling or advertising.
- If I have been trained or utilized by a commercial entity or its agent as a speaker (e.g., speaker's bureau for any commercial interest), the promotional aspects of the presentation will not be included in any way with this activity.
- If I am a speaker for any commercial interest, the promotional aspects of this relationship will not be included in any way with this activity.
- If I am presenting research funded by a commercial company, the information presented will be based on generally accepted scientific principles and methods, and will not promote the commercial interest of the funding company.
- If I am presenting research studies, I will include weaknesses and strengths of each study, in addition to harms and benefits of specific products. I will also discuss studies presenting different conclusions about the product, if available.

Step 4: Declaration

I will uphold the ISMA CME standards to ensure balance, independence, objectivity, and scientific rigor in my role in the planning, development or presentation of this CME activity. Glossary of Terms as Defined by the American Council on Continuing Medical Education (ACCME)

Commercial Interest

The ACCME defines a “commercial interest” as any entity producing, marketing, re-selling, or distributing health care goods or services, used on, or consumed by, patients. The ACCME does not consider providers of clinical service directly to patients to be commercial interests. For more information, visit <http://www.accme.org/requirements/accreditation-requirements-cme-providers/standards-for-commercial-support>.

Financial Relationships

Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.

Relevant Financial Relationships

ACCME focuses on financial relationships with commercial interests in the 12-month period preceding the time that the individual is being asked to assume a role controlling content of the CME activity. ACCME has not set a minimal dollar amount for relationships to be significant. Inherent in any amount is the incentive to maintain or increase the value of the relationship. The ACCME defines “relevant” financial relationships” as financial relationships in any amount occurring within the past 12 months that create a conflict of interest.

Conflict of Interest

Circumstances create a conflict of interest when an individual has an opportunity to affect CME content about products or services of a commercial interest with which he/she has a financial relationship. The ACCME considers “content of CME about the products or services of that commercial interest” to include content about specific agents/devices, but not necessarily about the class of agents/devices, and not necessarily content about the whole disease class in which those agents/devices are used.
