Struble Candidate Statement

AMA alternate delegate

As a member of the ISMA for 14 years and the AMA for 22 years, I truly believe in the power of organized medicine. I am a proud family medicine physician serving my rural community in Northern Indiana for the last 15 years. I have seen how effective it is when physicians come together to advocate for change. I have been honored to serve in leadership at the ISMA in several roles, including as a member of the board, chair of the board, president of the association, and now as chair of the Commission on Legislation. I have also taken the opportunity to represent Indiana at the AMA, as a young physician section leader and most recently as a newly appointed member of the Council on Legislation. Through policy and action, I believe we can positively impact the practice of medicine and the care of our patients. I would be proud to serve as an alternate delegate to the AMA and represent Hoosier physicians at the national level.
