*******Please note: Provider Advocates cannot submit claim inquiries on claims with dates of service greater than 18 months.*******

Claim Resolution Process

A Claim Reconsideration request is typically the quickest way to address any concern you have with how we processed your claim. With a Claim Reconsideration request, we review whether a claim was paid correctly, including if your provider information and/or contract are set up incorrectly in our system, which could result in the original claim being denied or reduced.

There are several ways to submit a Claim Reconsideration Request.

1. Submit an electronic Claim Reconsideration Request **with attachments** on [Cloud.Optum.com](https://www.cloudoptum.com) (*preferred method*).

By using this method, you can:

- Reduce the overall turnaround time for the request.
- Receive immediate confirmation and a unique tracking number to show we received your request.
- Check submission status throughout the process.

To learn more, view the [Optum Cloud Quick Reference Guide](#).

2. If you are a registered user on [UnitedHealthcareOnline.com](https://www.unitedhealthcareonline.com), use Electronic Claim Reconsideration for submissions **without attachments**.

- You'll be notified that your request was received.

View the [Claim Reconsideration Quick Reference Guide](#) for more information.

3. Paper Claim Reconsideration Request forms can be downloaded from:
 - [UnitedHealthcareonline.com](https://www.unitedhealthcareonline.com) [Claim Reconsideration](#)
 - o Paper Claim Reconsideration instructions (will add hyperlink to the combined document)
 - [uhcwest.com](https://www.uhcwest.com)
 - >Library>choose your state>Resource Center>Claim Reconsiderations

Where to send the paper Claim Reconsideration Requests:

- **For UnitedHealthcare/UnitedHealthcare West**, if your request for a claim reconsideration is for a *commercial* or *Medicare* member, send the paper Claim Reconsideration Requests to one of the following:
 - > the address on the Explanation of Benefits (EOB) or the Provider Remittance Advice (P.R.A.)
 - > the claim address on the back of the member's ID card
- **For UnitedHealthcare Empire Plan**, send to:
P.O. Box 1600
Kingston, NY 12402-1600

Measuring Patient Care: Medicare Star Ratings

Patient Care Opportunity Reports

PCOR

- **What is a PCOR Report?**

- A tool that provides clear and actionable information for physician groups and organizations to use to identify their patients' adherence status.
- The report uses UHC pre and adjudicated claims and other supplemental data to provide clinical and Part D information on members, either assigned or attributed to a PCP, in the group that have at least one open or closed care opportunity for the reporting year.
- The report is generated monthly and shows progress at the member level as "gaps" are closed throughout the year. Reports are also now available directly from UnitedHealthcareOnline.com and instructions are printed on the cover page of the reports.

- The goal of the PAF program is to help ensure that these patients receive a complete and comprehensive health assessment at least once per year. The PAF program also supports a variety of CMS quality programs, including HEDIS and the Star Quality Rating system.
- Correctly completed forms submitted with the appropriate signed documentation will be reimbursed a one-time administrative fee for each comprehensive patient evaluation per calendar year. This reimbursement is solely to compensate you for any professional time and administrative costs you have incurred by participating in this program.
